Hi!

I've got a Kenwood TK-801S UHF 6 channel mobile radio that needs to be reprogrammed. I have no programming info. Can anyone burn the PROMs (M54730AP x2) and send them to me via the mail?

If you can help me out, please email me the costs and I'll send the freq info.

THANKS!

5. Where can one find a catalogue of equipment?

Newsgroup: rec.radio.amateur.swap
Date: 1996-01-29 00:00:00 UTC
From: soniat@prism.gatech.edu
Message-ID: <4ej6ue$mto@acmez.gatech.edu>
Source record: 11341
Cross-posted to: rec.radio.amateur.swap,rec.radio.amateur.equipment,rec.radio.swap

Is there a source for information on at least the most popular equipment.
I see postings for this and that but most don't list features.
Is there a place to look them up. The Yeasu web page only lists current
models.

Should we start a Web site or FAQ where people who are selling
add descriptions to the existing list and augment existing descriptions?

Ed

Wanted 1MB and 4MB 30-pin SIMMS with parity, not working. With or without chips.

I have the chips, just not the boards to put them on.

Thanks, miker

If this guy is looking for a bad RAM, maybe he should go to a bath house
or something.

10. SWL RECEIVER R390A/URR $300

Newsgroup: rec.radio.amateur.swap
Date: 1996-02-04 00:00:00 UTC
From: flanders@znet.groupz.net
Message-ID: <4f378j$4ph@news1.sunbelt.net>
Source record: 11199
Cross-posted to: rec.radio.amateur.swap,rec.radio.swap,rec.ham-radio.swap

Excellent short wave receiver for SWL or Ham radio.

Many think this R-390A/URR is the best SWL receiver ever made. This one is a late model (one of the last production runs), made by EAC. It is big, heavy, uses tubes. Quality look, feel, and performance. 110 or 220 VAC. Even has ovens for oscillator stability.

Has 6 IF selectivity filters (0.1, 1, 2, 4, 8 and 16 KHz).

Also 2 audio filter positions (Wide and Narrow).

2 meters (Line Level, Carrier Level).

Total of 17 knobs (Line Meter sw, Line Gain ctl, Ant Trim ctl, AGC sw, Limiter ctl, Audio Response sw, Break-In sw, Bandwidth sw, BFO Pitch ctl, Function sw, BFO sw, Dial Lock ctl, Zero Adj ctl, Local Gain ctl, RF Gain ctl, Megacycle Change ctl, Kilocycle Change ctl)

Rack mount style (no cabinet, but has all covers). 19 in wide, 10.5 high, about 15 deep.

No speaker. No manual (Fair radio sales has manual).

It is unusually clean, near-new appearance. I can furnish photos with SASE - ask.

$300 plus UPS if shipped.

13. WTB ICOM CW FILTER

Newsgroup: rec.radio.amateur.swap
Date: 1996-02-06 00:00:00 UTC
From: flanders@znet.groupz.net
Message-ID: <4f8bvv$p0e@news1.sunbelt.net>
Source record: 11202
Cross-posted to: rec.radio.amateur.equipment,rec.ham-radio.swap,rec.radio.amateur.misc,rec.radio.amateur.swap,rec.radio.swap

I want to buy a CW filter for my ICOM Ham Radio.

This can be the 9 MHz series, like the

FL32 (500 Hz BW), or the
FL63 (250 Hz BW),

Or, the FL52A (500Hz BW) for the 455KHz IF.

These fit several of the ICOM radios. Mine is the 751.

How much?

Jerry W4UKU flanders@groupz.net

I want to buy a CW filter for my ICOM Ham Radio.

I need the FL52A (500Hz BW) for the 455KHz IF.

These fit several of the ICOM radios.

How much?

Jerry W4UKU flanders@groupz.net

21. Yaesu FT-840 for sale or trade for TVRO Stuff

Newsgroup: rec.radio.amateur.swap
Date: 1996-02-20 00:00:00 UTC
From: Thomas Landmann <landmann@claudia.adp.wisc.edu>
Message-ID: <Pine.A32.3.91.960220110925.15028H-100000@claudia.adp.wisc.edu>
Source record: 11210
Cross-posted to: wi.madison.forsale,wi.forsale,alt.satellite.tv.forsale,rec.radio.amateur.swap

I have a Yaesu FT-840 HF tranceiver which has spent most of the 1+ year
I've owned it in its factory carton. I bought it planning to learn CW,
and that hasn't happened as quickly as I had planned. The unit is in
mint condition, with original carton and manual.

The rig is a general coveral receiver 100kHz - 30MHz, and transmits 160M
- 10M. It has full 10M repeater support. It is a current Yaesu model,
and still sells at AES for approx. $800.

I am interested in either selling (best reasonable offer) or trading for
satellite TV gear.

I would like to give away a couple years of old QST magazines. Covers
1979 to 1981 aprox. Free if you are local, otherwise pay shipping by UPS
or US Mail book rate.

While I'm here I'd like to mention that I'm looking for a low end HF
trancsceiver with receive capability from .5 MHz to 30 MHz so it can
double as my short wave receiver.

> or US Mail book rate.

We need QST 1-6/77; 1,8,9 and 12/1979; 1,2,12/1980; 1/1981 to complete our archive. Can you help?
BTW: we also need: 6/1986; 1/1992; 11 and 12/1994; 1-8/1995 - just in case anybody else can help.

QSL COLLECTION is a voluntary project, and the largest collection of its kind worldwide. We need magazines, books etc. for reference and research and would be particularly grateful for *old* issues (from the early years up to the seventies).

25. 33MHz mod for a TM-741A w/UT-28s

Newsgroup: rec.radio.amateur.swap
Date: 1996-03-05 00:00:00 UTC
From: spade@onramp.net
Message-ID: <4hgnkc$cce@news.onramp.net>
Source record: 11214
Cross-posted to: rec.radio.amateur.equipment,rec.radio.amateur.misc,rec.radio.amateur.swap

I have a Kenwood TM-741A with UT-28s 10 meter band unit added. All faqs I have seen state that cutting the green wire and removing R54 & R55 will enable Tx from 26MHz to 45 MHz, and Rx from 18 MHz to 54 MHz. I bought this radio with this mod and have checked and verified it. However, when I try to Tx in the 33MHz range my output is only about 1.5 watts. It will not receive at all here. I am a vol. firefighter and my dept. as well as almost all other VFD's around this area use the 33 MHz range. My Rx & Tx in the 2 meter and 440 mods check out fine. (I'm using 155MHz & 450 MHz ranges.). Can anyone offer any help? Thanks.

26. Send/Receive Amtor for $125

Newsgroup: rec.radio.amateur.swap
Date: 1996-03-14 00:00:00 UTC
From: Jim Berry <basalop@eskimo.com>
Message-ID: <DoA576.97p@eskimo.com>
Source record: 11215
Cross-posted to: rec.radio.amateur.swap,rec.radio.swap

I have the AEA CP-1 computer patch (radio modem), a complete VIC-20 and the MBA-TOR cartridge that plugs into the VIC (or C-64). You add the monitor and you have everything needed to send and/or receive Morse, ASCII, Baudot (RTTY) and Amtor. I will also include the Kantronics Hamsoft cartidge that will allow you to operate Morse and RTTY.

This package will include all books, manuals, papers, power supply and RF modulator for the VIC.

I do have the monitor for the VIC/C-64 but I do not want to pay the shipping on that fella. You can have it for $10 and you ship.

Trades: I would like a dedicated CW keyboard. The MFJ 451 or 451X would be a good example.

30. FS or Trade: Toshiba Laptop

Newsgroup: rec.radio.amateur.swap
Date: 1996-04-26 00:00:00 UTC
From: mwatt@tfs.net
Message-ID: <3180cc08.33783862@news.tfs.net>
Source record: 11219
Cross-posted to: rec.radio.amateur.equipment,rec.radio.amateur.swap

I have a Toshiba T-1900 laptop, grayscale b/w screen, brand new battery, 486, 4 meg RAM, 200 meg HD (uncompressed -- 360 compressed), 14.4 fax/data PCMCIA modem, charger and carrying case (Targa). I'm looking to swap for a clean TS-50 or similar mobile HF rig. Also have an external monitor/keyboard/Microsoft mouse, and Epson Stylus 400 ESC/P2 Inkjet printer that I can throw in for an HF/VHF all-mode mobile ICOM IC-706. Manuals for the computer, and the card manager software, are included.

Being an apartment dweller, would really like to go compact HF. Personal delivery can be arranged throughout the midwest and southeast (I'm in Kansas City, and for the next month or so will still be travelling through Missouri to Western Tennessee. Iowa, Southern Nebraska, Western Kansas, Eastern Oklahoma -- including OKC -- East and Northwest Arkansas, Western Kentucky, Middle Tennessee, North Mississippi, Northern Alabama are all potential areas for delivery, on my schedule!)

This computer is in excellent condition, and was used both on the road and as a primary home computer with the accessories. Reason for trade: got a new pentium at home, and have little need for mobile computing anymore.

Address/Phone number will be given out by private e-mail only, for serious inquiries. Cash price would be $950 for the laptop, $1,250 with the external accessories.

Thanks,

Marty KN4BH/0
Overland Park, Kansas

I need to find a manual for the R-1051 series Receiver. I have a
R-1051c and need to make repairs. Can anybody provide me with a copy
of the Technical and/or Operator's manual{s} ? Thanks !

I am looking for a 451X Tower- (I think that's the
right p/n)
It is a 40' crankup tower that when nested is only
10' high

Does anyone have one they want to unload?

Please forward any info to

I have a ranger 2970, 100 watt,10-11 meter , for sale.
This radio was $539.00 new. I still is new, but I will sacrifice
for $250.00 OBO.
ALSO have a new 20 Watt external power supply for $75.00 OBO

Will consider $300.00 for Entire setup with
panasonic external speaker unit.

All Offers considered. Also consider swap for good Handheld's

Contact Art via;
a_sweet@psych.ucsb.edu

Thanks,
Art

Bill,

For your info, I paid $190 at a flea market for a 3sat in excellent condition. I suspect you'll pay between that and $250.

Good luck.

Harold

49. Lafayette Comstat 25A

Newsgroup: rec.radio.amateur.swap

From: llama@randomc.com
Message-ID: <4oslqu$7l4@news1.randomc.com>
Source record: 11238
Cross-posted to: rec.antiques.radio+phono,rec.radio.swap,rec.radio.amateur.equipment,rec.radio.amateur.swap,rec.radio.cb

I bought a box of junk that used to be a "Lafayette Comstat 25A" 23 channels citizens band radio. There isnt much left, and all the tubes are gone from inside it (it's got an inspection date of early 1969 on it), plus (i assume) it was before circuit cabinets/pcb's so its all wire to wire so God knows what else is wrong with it. Just wanted to let anyone who might be rebuilding one / looking for one know that I have it and they're happy to any pieces of it before I rip it apart.

Oh yeah, I can also send you the tube sockets (7 and 9 hole) if you need them for another project. Advance apologies as I couldnt read the charters for the groups I posted to (thats quite a few) since I'm not even a Ham. I tried stripping it down as much as possible, replies to email unless relevant to group (in which case, gimme a Cc because I might be interested).

TIA,
-llama

Hello Hams and AmRadio Buffs!

I'm a license plate collector, and as always, I'm looking to add some plates to my collection. If you have a plate (or plates) that are just lying around, drop me a line! I'll probably buy it!

I have a pretty good collection going, and some can be seen on my license plate collectors site - http://users.aol.com/PL8Seditor/queen-b.htm

Hope I hear from you!

(by the way, all butt-kissing aside, many thanks to all the ham operators who have helped me out with my hobby in the past - you guys (and girls) have been really decent and helpful, and it IS appreciated. - Drewski)

I am looking for a 451X Tower- (I think that's the right p/n)
It is a 40' crankup tower that when nested is only 10' high

Does anyone have one they want to unload?

Please forward any info to

I need an assembly/operating manual for the Dick Smith 80 Meter xcvr kit.
This was sold in the US during the late 80's/early 90's in kit form only. I
have 3 of them assembled from a ham fest but only one receives, none transmit.
Would appreciate help in locating a manual. I will be glad to pay for copies,
postage and a service fee for your trouble.

I have a limited number of EF Johnson Fleetcom II UHF rigs for sale.

These are easily converted to repeaters. I can provide the unit 2
ways.

As-Is - $50.00 + $10.00 s&h You do all of the conversion, alignment,
recrystaling, etc. I will provide instructions for the conversion & a
copy of service manual.

Ready-To-Go Repeater $300.00 Fleetcom II converted to repeater use,
crystaled to your freqs, tuned and aligned, simple carrier operated
relay. You still need to provide a duplexer, antenna, & ID'er
w/manual

These units are all pulled from service and tested & aligned on
468mhz.

I also have a limited number of service manuals for older commercial
equipment. E-Mial your needs and I'll see what I can do.

Other Services available: (All prices + s&h)

Reprogramming of commercial equipment to Amatuer freqs - $35.00
Equipment Repair - $60.00/hr (1/2 hr min, estimate if repair will
take more than 2 hr.)
Custom Cables
'Most anything else your rig might need.

E-mail your needs to:
kproctor@ix.netcom.com

I have an amplifier module that does about 300Watts output class AB from 20 to 80 MHz. The amplifier is designed for 48 Volts, but will work at reduced levels if powered with a lower voltage. It also requires a low current 12 volt supply for the biasing. It has 2 transistors and very nice input and output broadband transformers. Send me some e-mail if you need more info. This is a great amp module for a homebrew project.

$100 shipped

Cross-posted to: man.ham-radio,rec.radio.amateur.misc,rec.radio.amateur.swap

Hi. I've got a few QST magazines looking for a good new home.

In total, 445 issues, which include 7 from the 1930's, 37 from the 1940's,
77 from the 1950's, 38 from the 1960's, 87 from the 1970's, 118 from the 1980's, and
81 from the 1990's.

I'm asking $$ as follows:
for single issues, $5 each for 1930's,
$3 each for 1940's,
$2 each for 1950's,
$1 each for 1960's and 1970's,
$2 each for 1980's and 1990's.

Prices in Canadian dollars, postage extra if required.
Considerably cheaper for purchases of more than one issue.
$200 for the set.
Extremely flexible on prices.

Thanks.

MAKE YOUR OWN CABLE DESCRAMBLER - CHEAP!

Making your own Cable Test Box is simple!
Convert any cable box to a Cable Test Box, in no time!

If you've seen ads for converters that sell for up to
four hundred dollars, you know that this is a great deal.
(It does the same thing.) All modules are priced from
about ten to forty dollars!

Once you know how to get the the correct module, it's
simple to install, and they descramble all channels
on all systems. Don't be ripped off any more!

For more information, and a complete list of companies
that sell Test Modules, send Cash or Money order for
$5.00 to:

Ward Cable Enterprises
1606 Soquel Avenue Ste#A
Santa Cruz, CA 95062

81. Needed: Manual for Heathkit SB-110 6 Meter Rig

Newsgroup: rec.radio.amateur.swap
Date: 1996-09-18 00:00:00 UTC
From: basil@turn.com
Message-ID: <MPG.ca9d9dd90d0ba06989680@news.gte.net>
Source record: 11174
Cross-posted to: rec.radio.amateur.equipment,rec.radio.amateur.homebrew,rec.radio.amateur.misc,rec.radio.amateur.swap

I need a manual for an old Heathkit SB-110 6 Meter Rig. This is an old tube rig, and is currently in non-working, but otherwise good, condition. I am willing to pay copy and postal charges. The more info I get on this radio, the better, so if you have articles or other writings about the Heathkit SB-110, I would be interested in those also.

Thank you in advance for your help.

Basil (Darin) Arrick, KB5KHR
basil@turn.com

82. Needed/Wanted: Vacuum tubes

Newsgroup: rec.radio.amateur.swap
Date: 1996-09-18 00:00:00 UTC
From: basil@turn.com
Message-ID: <MPG.ca9dbf15340ddfb989681@news.gte.net>
Source record: 11175
Cross-posted to: rec.radio.amateur.equipment,rec.radio.amateur.homebrew,rec.radio.amateur.misc,rec.radio.amateur.swap

I need a bunch of vacuum tubes for a couple of radios that I am working on: a Collins KWM-2A and a Heathkit SB-110 6 Meter Rig. Some of the tubes that I need are as follows:

6U8A (Qty: 3)\
6EB8 \
6EA8 ---- These are "must haves"
6DC6 /
6AZ8 (Qty: 2)/

12AT7 (Qty: 2)
12AX7
6BN8 (Qty: 2)
6AZ8 (Qty: 2)
6146B (Qty: 5)
6CL6

If you have any of these tubes, let me know. I would prefer to purchase them all from one person, if possible, but I will purchase them from different places, if needed. If I could pick them up (local to Dallas/Ft. Worth, Texas, area), that would be a _HUGE_ plus. I will pay shipping costs.

Thank you in advance for your help.

Basil (Darin) Arrick, KB5KHR
basil@turn.com

Cross-posted to: pdx.forsale,pnw.forsale,eug.forsale,or.forsale,seattle.forsale,rec.radio.amateur.swap

ASOLUTLY MINT - HAS NEVER TRANSMITTED!

purchased new, all original manuals, box etc.

KENWOOD TS-850S / AT (internal automatic antenna-
tuner!), 160-10 meter, MARS modifiable (no mods have
been done to this radio), 150kHz - 30MHz receive,
SSB IF slope tuning with independant High & Low Cut
control, IF notch and audio filters, full and semi-
break-in CW, fine tuning on CW, 100 mem channels,
keyboard freq entry, RIT/XIT, dual mode noise
blanker, RF attenuator, switchable AGC, more spec's
on request.

I'm also including with the transeiver a KENWOOD
MC-85 desk mic, a Mosley MP-33 3-ele tri-band
(10-15-20 meter) beam antenna, an Antron-99
10 meter vert antenna, and a CDE AR-22R antenna
rotator and controller, and what ever other goodies I
can find that go with this stuff.

Price is $1,400! OR $1,?00 cash and a nice 2m/70cm
hand-held (prefer Yaesu FT-530 with acc's) but will listen
to any offers. Wives, Christmas is right around the corner!

call evenings (503)390-0942 or email me at:
rb@cyberhighway.net

88. Ham Gear for Sale....

Newsgroup: rec.radio.amateur.swap
Date: 1996-10-11 00:00:00 UTC

I have the following Ham Gear FOR SALE....

Kenwood TS-450AT w/ narrow SB Filter and Heil Desk Mic. It's in
Mint Condition and works fine. Price: $ 750.00 + shipping

Nye Viking Roller Inductor Tuner Model MB-V-A . Great Shape & Works
Fine. Price: $ 400.00 + shipping

Henry 2k-4 Console Amp. Has new transformer. Works Great and Looks
just as good. Because of size this is pickup only.... Price: $ 750.00

Reason for selling is that I just got married a few months ago and
either the Ham Gear or me go.

Make all replys to:

farmboy@rollanet.org

Thanks for reading....

Jim

Hey, fair is fair, make her give up all her hobbies too, and see what she says then. It goes both ways.

Bill

I recently purchased two used Uniden GMR100's and did not get an owners manual with them. Does anyone know where I can get one or does anyone have one they would be willing to sell?

Please e-mail me with your responses!

Thanks in advance!

Andrew

98. GMR100 Speaker/Microphone

I had a couple of these radio's and chargers. I don't have them
anymore, but wanted to tell you the 2 pocket charger only charges 1
radio and 1 spare battery at a time. In my opinion, the charger was way
overpriced, it was something over $100 and it just used the AC adapter
that came with the radio. It just took the - and + 12V and placed the
power at the base of the radio rather than at the AC adapter hole on the
radio. You might want to think about designing a homemade version to
save yourself the $$$$.

I lucked out. I did it the easy way, just got the wife to become a ham also! :>

Howard

114. FS: National HRO-M with 8 Coilsets

Newsgroup: rec.radio.amateur.swap
Date: 1996-10-24 00:00:00 UTC
From: The Farmers <farme007@tc.umn.edu>
Message-ID: <327020C8.E41@tc.umn.edu>
Source record: 11110
Cross-posted to:
rec.radio.amateur.boatanchors,rec.ham-radio.swap,rec.radio.swap,rec.radio.amateur.equipment,rec.radio.amateur.swap

I am selling a National HRO-M. This classic receiver comes with 8 coil sets (48-96KC, 100-200KC, 180-430KC, .9-2.05MC, 1.7-4.0MC, 3.5-7.3MC, 7.0-14.4MC, and 14.0-30MC). It has a wood rack that holds seven of the coil sets. The receiver appears to be complete but does not have an external power supply or speaker with it. It is untested. There is one control on the front panel that I believe has been added.

You can see a picture of this set, and some other Nationals I am selling, at my website:
http://www.geocities.com/SiliconValley/3839/radio_fs.html

I am taking offers on this receiver until Sunday, October 27, 1996. So far, the highest offer is only $150.

Greg Farmer

115. FS: National AGS-X / 27 Coils / Rackmount

Newsgroup: rec.radio.amateur.swap
Date: 1996-10-24 00:00:00 UTC

Message-ID: <3270232C.1202@tc.umn.edu>
Source record: 11111
Cross-posted to:
rec.radio.amateur.boatanchors,rec.ham-radio.swap,rec.radio.swap,rec.amateur.equipment,rec.radio.amateur.swap

I am taking offers on a rare National AGS-X receiver until Sunday, October 27, 1996. It has a complete set of 9 coil sets (1.7-2.0MC, 3.5-4.0MC, 7.0-7.3MC, 14.0-14.4MC, A, B, C, D, E). It also has a SPU697? rack mounted power supply, a National rack mount, 2 National rack mount panels for the extra coils, and an original instruction book. It is in very nice original condition and is untested. Paint and lettering are very nice, no rust, and the chassis is in excellent unrestored condition with all original tube shields, capacitors, a Bliley crystal, and the dust cover. There is not a speaker included.

You can see a picture of this set, and some other Nationals I am selling, at my website:
http://www.geocities.com/SiliconValley/3839/radio_fs.html

Howard,

I'm sorry. Did you say getting your wife to be a ham was the easy way
out???? I'm still trying to get mine to open the book.

I have a couple of NCL-2000 amps in need of retubing.

Can anyone point me to a source of 8122's? (New, not pull-outs)

Reply to k0hb@arrl.org, k0hb@hamlink.mn.org, or hans_brakob@adc.com

Thanks es 73,

de Hans, K0HB

It doesn't have to be an either/or thing. . .
Put the ham gear in storage until you decide to leave.

Henry KK6JR, G4NOC
Been there, done that, really.

My small Kenwood TouchTone microphone (model MC-48B)
has lost it's ability to make tones when the center horizontal
row (numbers 4,5,6) are pressed. And my fingers are too fat
to get inside the thing to fake a repair. So...

Anybody got a small Kenwood mic such as the MC-48 that
they would like to exchange for cash?

Thanks in advance

de A Redshirt in Rocklin

I am sorry, but at this time I must use an alternative E-mail identity and cannot tell you who I am. I am, however, very close with with a lot of the key players involved with this deal. Bound by contract, certain people where to export these radios never to be returned into the states or they would be considered stolen units. At least a third of the units are damaged or not working and ALL do not have serial numbers. The only reason why I'm going public with all this is because these individual misrepresented themselves to the supplier and will misrepresent themselves to you (who will pay twice as must as what they bought them for). The people trying to sell them out here are not even part of the group that legally bought them. If you know what's good for you, don't get involved. It's bad news all the way around.

134. ALINCO DEAL: THE TRUTH

Newsgroup: rec.radio.amateur.swap
Date: 1996-11-11 00:00:00 UTC
From: kc6ttr@ix.netcom.com
Message-ID: <847667907.31523@dejanews.com>
Source record: 11130
Cross-posted to: rec.radio.swap,rec.radio.amateur,rec.radio.amateur.swap,rec.radio.amateur.equipment

Greetings,
I felt compelled to make the truth known about this Alinco radio "deal" that has been causing some controversy on the newsgroups. This is ALL off the record and I will not respond to any E-mail regarding this matter. The purpose of making the following information public is to serve my fellow amateurs and to put this issue to rest once and for all.
Some radios were sold to a group of individuals who were to export these units to Europe or Mexico. Some of the radios are new in the box, some are not. All the radios were discontinued models from the early 90's. After hearing rumors of the radios possibly making their way back into the country (even after being reasured by the buyers that this would not happen) it was decided to remove the serial numbers and make a list of the the radios incase any did in fact make it back into the States and where in need of service. These units would not be serviced. Well, as you can see, there has been numerous offers to sell these radios on these newsgroups and other forums. Personally, it's very upsetting to see an opportunity to promote amateur radio to some less fortunate countries turn into a money making oportunity for some "sad" individuals who can't even keep their word. The facts are these radios were not to be sold in the US...it's sounds like they are. These individuals lied to Alinco and who knows what they will say or do to sell these units. It is my hope as a true amateur radio operator that anysolicitation to sell these radios on these newsgroups or any other forum in the United States be boycoted by ALL amateurs and non-amateurs alike.
These individuals cannot be trusted and they should not be rewarded for their misdeeds to the amateur community. I hope this has giving enough of you the information you need and I truely hope this matter will be put to rest. Thank you for your time to read this.

Respectively submitted,
Scott Booth, KC6TTR / Alinco USA

Hello to all and thanks for reading this message

I recently acquired some surplus cable TV trunk line. I suspect the cable is 75 ohm but not sure. The cable is 11/16 inch in diameter with black plastic coating over an aluminum jacket there is a white dialectric and a thick center condutor. the numbers written on the wire are T10 J. On the reel there is a Type No T10625JBFV1 and below that the number GN7GN. I would appreciate any help at identifying this wire what it's approxmatly worth and were I would be able to fine connector that would fit it.

Thanks Again
73's Doug VA3DMB

HELP!! I need to sell ALL my HF equipment. Here's a list;
Kenwood TS-690 w/internal tuner (tuner inop) $1000
Kenwood IF232 Computer interface $75
Kenwood SP-23 Speaker $50
JPS NRF-7 $150

Kenwood MC-60 Desk Mic $75
MFJ 962 Versa Tuner III 1.5KW $100
Astron VS-35M Power Supply $150

MFJ 1270C TNC $75
Motorola Mocom 30 VHF (for packet) $25
Motorola Micor 70cm (needs converting) $25
GE Master II (?) 6m (commercial, needs conv)$40

I need to sell ALL of this equipment... I don't really want to but i
have legal fees to take care of....

My e-mail address is;

jaykq4ms@ipass.net
or
kq4ms@juno.com

Might be some other things that I've forgotten.

Also, I can be reached at (919) 664-9384. Thats a digital pager. Page
me and I'll get back to you ASAP.

Thanks
Jay

Hi Doug VA3DMB

Bill N5WO on this end

I'm fairly sure what you have is 75 ohm cable TV coax. It is used to make the main cable runs fo a CATV system and works very nicely on the VHF and lower ham bands. In fact the stuff you have with the plastic jacket is the best.

We have used the stuff for years on VHF repeaters both rec. and trans. If you want to get technical there is a mis-match 50 ohm as compaired to 75 ohm but, it generaly won't cause any great problems below UHF. And, I might even use it at UHF freq. if the run was fairly short, say less than 150 ft., and the other choice was one of the RG-8's out there. If you were choosing between say Belden 9913 or LMR-400 I would choose the last.

As for the connectors there are commercial ones out there but, they are not for the faint at heart. The will cost you big bucks. Likely over 25.00 per connector. We have used, with good luck, a standard PL-259 connector on this cable with pretty good luck. Just remove enough of the jacket to expose the center cunductor to a length that will go out the end of the PL-259, you can solder the center conductor it should be copper or atlest copper clad. Now the shield is a little tricky. You need to remove the dielectric between the alum. shield and the center conductor. Clean it out for about 1/2 inch or 5/8's at most. Now remove the black plastic cover, about 1 inch should be fine. Take a hack saw and make several cuts in the alum. shield so it can be clamped down on the end of the PL-259. The cuts are to be made with the parallel to the cable longwise. Now come the tough part. You need to install the PL-259 (complete) on the cable so the center conductor

extends out the end of the connector and so the shield comes up on the shoulder of the other end of the connector. However, be carfull not to bind up the workings of the threaded sleeve on the connector. Take a hose clamp, on of the screw clamp types, and cause the alum. shield to compress down on the sholder of the connector. Anyway it all works and it's a cheap way to make a connector for this stuff. This type of connector workes beter on the 1/2 inch verson of the same cable.

Well, this is possibly much more than you wanted to know if so throw the un-used part in the bit-bucket.....hi hi.

Check with you CATV venndor in the area, best to find the guys that take care of the lines they should be able to help you with this cable. As for what it's worth, sorry to say possibly not much if it has found its way to the surpluse market. However, if you need to put up a VHF repeater and need some hard line you may have a small gold mine.

Hope this helps

Bill Wyatt N5WO
Woodward, Oklahoma USA

BTW be nice to the cable guys they might just give you a couple of ends for your cable.....never hurts to ask.

The ratio between the inner and outer counductors will yield you the Zo =
of the line.

Check the ARRL or RSGB handbooks (or other engineering texts) to find =
the formulae.

Might want to try radio shack... the last sales paper I received had the HTX-202 and 404 at $189.00 each... I haven't seen but 1 used one cheaper than that.

Later,
Dave

Hello,
I have a Yaesu FT 77 and a Kenwood PS 30 power supply for
sale.
FT 77 is a fully solid state rig
100 watts on CW, USB, LSB
Has a narrow band CW filter
Has all amateur bands including the WARC bands
Comes with the original manual
Hand mic, mobile bracket
Power supply cable (banana plug)
Mint condition, no scratches or dinks

The knwd PS 30 power supply that I use supplies 13.8vdc, 20 amps. The pwr
supply in also in mint condition, still in original package. Asking $475
plus shipping, for both.
I will pitch in the following free: 20m and 40m dipole precut wires (avg
12), connectors, RG 58 coaxial cable, dog bone insulators. Reply to
sjayasha@nmsu.edu. Tnx.

Hello:

I'm posting this for a friend whose brother was a Ham before loosing interest and moving away... He has all the following gear and wishes to sell it.

PLEASE DO NOT CONTACT ME! I have no information or knowledge of the gear. To be honest, I doubt that Steve knows much more about the gear than what he has sent to me!

Also, PLEASE SEND E-MAIL to the owner... He does not have Usenet access.

The owner can be contacted at:

Steve Yemm
yemmhart@juno.com

Steve wishes to sell this gear as a "package deal" to one person if possible.

Steve's brother told that the last time he used the gear, it all worked, but that was several years back. Therefore, all gear is offered on an "As Is" basis.

Gear is located in Southeast Missouri but can be shipped.

Please make an offer DIRECTLY to yemmhart@juno.com

GEAR LIST STARTS

LIST:
1 - Heathkit Model #SB-600
1 - Heathkit Model #SB-101
1 - Heathkit Model #HM-15 Reflected Power Meter
1 - Heathkit Model #HD-15 Hybrid Phone Patch
1 - Antenna Rotor motor & CDE control
1 - 6 arm antenna
1 - Microphone w/ button
1 - Microphone bulb w/o stand
1 - Gal RF load resistor
1 - Code Key
1 - 6 position coaxial switch
1 - Antenna rotor control model #T10 Alliance Mfg Co
1 - pair headphones by Sensiphone/Superex

1 -1 Home made cigarbox RF something w/transformer
3-4 loose vacuum tubes some are 4" & 5" tall
25+' RG59/U Coaxial cable
25+' RG58/U Coaxial cable
35+' RG8/U Coaxial cable
35+' RG8/U Coaxial cable
Misc short coaxial cables w/connectors
Other misc coils, switches & misc tube #6LQ6 USA.

1 - 1000 watt amplifier 22w x 15d x 28.5h, w/plate converter meter, load
& plate adj. knobs, w/blower meter & switches. This unit is very heavy & has 6 large vacuum tubes: The top section contains 4 tubes labeled RCA Electron Tubes #60-04. These are all connected at their tops
as well as plugged in at their bottoms. There is 1 unused replacement for
these labeled CETRON 5725/T160L, it is 2" dia x 6" high. The lower section contains 2 tubes, 2-1/4" dia x 8" high. One is marked JAN-CQN-872A, VT 42A, Made in USA, SLATER. The other is marked 872A, USA
2-43, RCA Radiotron Electron Tube. Both have mercury spatters on the inside of the glass.

GEAR LIST ENDS

Thanks!

Message-ID: <59k1j9$4mg@news.xmission.com>
Source record: 11007
Cross-posted to: rec.ham-radio.swap,rec.radio.amateur,rec.radio.amateur.boatanchor,rec.radio.amateur.swap,rec.radio.amateur.homebrew,rec.radio.swap

(G4BXD,106312,1035@compuserv.com) posted a message to
rec.radio.swap (8 dec 1996 16:57:51 GMT) looking for Command set bits
and
pieces. I tried to respond but cannot reach your email.
I tried using the Ham Callsign search servers but couldn't find
you listed there either..

This is what I have. All responses welcome.
I have a command set - R-27/ARC-5. It's got the following six tubes:
Tube Nr. Condition
12SK7 - good
12SF7 - good
12V6 - good
12SQ7 - good
12SK8 - Unknown*
12SK7 - Bad**

*TV-7D/U nor the Simpson Model 1000 tube tester has setting to test the
12SK8.
** One of the 12SK7 Tubes is bad.

The cabinet is still intact, but it's missing the lid(?) that goes on
top over the tube compartment, and there is no dynamotor. The inside is
clean - no burned parts, etc. Don't know if it works or not.

The whole thing weighs 7 pounds.I'm asking $45.00 plus shipping and
handling.

I also have two of the large three-ganged variables from a couple
of Command sets that were parted out. I am asking
$5.00 ea + shipping and handling.

I've another R-27 chassis with caps, a few Coils,
and the varible condenser tuning unit and dial.
$8.00 + Shipping and handling.

Greg

In article <59k1j9$4mg@news.xmission.com>, you say...

>12SK8 - Unknown*
>12SK7 - Bad**
>
>*TV-7D/U nor the Simpson Model 1000 tube tester has setting to test the
>12SK8.
>Greg
>KB6WKW

Greg,
You would have better luck if you looked at the tube tester's entry for a 12K8 (the 12 volt equivalent of the 6K8 converter/oscillator tube). That's probably why you didn't find it in the list. The tube has a grid cap on top; ergo, no 'S' in the name. The 'S' denoted 'single-ended' tubes that had no grid or plate caps.

Hope this helps.

```
Hello all, Tnx for reading.
Looking to buy a good used triplexer for 144/220/440 mhz... between
100-250 W max power would be more than enough as right now I'm at 6W on
2m, my 440 rig is 70, the 220 rig will be 100 and I'll be getting a 2m
Mocom at 35W in the next couple of days.
Thanks,
DAve

I have two command receivers that are complete except for dynamotor
and are in good working order. If one in unknown condition with a known
faulty tube is worth $45 does that make mine worth $60 each?

One covers 190 to 550 Khz and the other covers 3 to 6 Mhz.
